

Friston Parish Council

Draft Minutes of the Meeting 9th October 2019

There were present: Cllrs M. Caplin (in the Chair) S. Jackson (Vice Chair), J. Burch, C. Brooks, D. Brooks, A Simpson, M Schedrin and P. Welby (Parish Clerk).

There was one members of the public also present.

155/19 Planning – DC/19/3597/FUL – Use of part of a former agricultural building as a boiler house, the erection of a chimney and alteration to a door – Grange Farm, Aldeburgh Rd, Friston.

There were no objections to the design or construction materials/methods of the application as it is alterations to an existing building. However, the Council were concerned that the boiler being housed in the building be an environmentally friendly one in terms of emissions.

156/19 SASES – The SASES group had asked that due to the short time scale in getting representation in during the planning process that documents do not have to wait for a Council meeting to be approved.

It was agreed that Cllr Caplin be authorised to agree submissions on behalf of the Parish Council to relevant authorities and organisations.

This decision will be reviewed on the 31st July 2020.

Phillippa Welby
